

Great Taste of the Midwest 2011 Scorecard

Printing Instructions: Print normally, or select "Booklet Printing" and center-staple (less paper but smaller type).

This list is organized by table number. We used Beer Advocate's ratings this year for two reasons: they include the beer style and the rating is easier to interpret. We threw out ratings based on less than 10 reviews. Empty boxes mean the brewer didn't tell us what beers they brought (but we give suggestions when possible). This is not a complete list; due to time constraints we couldn't research all beers for all breweries. ABV is Alcohol By Volume. Beer that are "timed release" are noted in the Notes column (clever, eh?).

Thanks to the guys at MHTG for their help, and to Jim B. for his proofreading prowess.

Now go have another beer! ~ Mike J.
