Welcome from the president

On behalf of the Madison Homebrewers & Tasters Guild, it is my pleasure to welcome you to the 15th Annual Great Taste of the Midwest! Today you have access to over 400 beers from 100 of the finest brewers in the Midwest. It is our intent to provide an opportunity for you to learn about and explore the wide array of beers that are skillfully crafted by the brewers assembled here today.

Today's festival is the result of a great deal of hard work and dedication by organizers whose only motive is to spread the gospel of good beer. Praise them for their efforts by raising your glass to them. You'll recognize them by the bright "Event Staff" shirts. They are justifiably proud of this event and deserve to be recognized for their dedication. Special thanks go to:

Thanks go out to the musicians for providing a festive atmosphere and sharing their gifts with us. Of course, we can't possibly thank the brewers and their staff enough for giving us a reason to gather here in good cheer. We appreciate that they have travelled here to give us a reason to gather here in good cheer. We appreciate that they have travelled here to give us a reason to gather here in good cheer. We appreciate that they have travelled here to give us a reason to gather here in good cheer. We appreciate that they have travelled here to give us a reason to gather here in good cheer. We appreciate that they have travelled here to give us a reason to gather here in good cheer.
her extraordinary patience with her beer-obsessed husband. She made sacrifices that allowed me time to devote to club activities.

You have several transportation options but we remind you that driving after attending this event is not one of them. Shuttles and cabs are here as safe options for you and I urge you to use them to get home safely. Information about them can be found in the back of this program. Please sample responsibly and make sure you drink plenty of water.

I hope you enjoy the Great Taste as much as we enjoy hosting it. Your attendance has helped to make this one of the world’s premier beer events. Cheers to you all!

From the Editor: MORE THANKS

Ticket vendors: Star Liquor, Steve’s Liquor, Wine & Hop Shop, Wonder’s Pub, Cork & Bottle, Capital, and J.T. Whitney’s were outlets for local ticket sales as a favour to us and a convenience to their customers.

Thanks also to the advertisers, whose support offsets part of the cost of providing this book for you. Please support the advertisers who helped us to bring you today’s festival.

The printing for this program book looks so good because of the work by Jim Mayhew at Quick Silver Press. Brewers: Buy Jim a beer if you see him; better still, make his (and Bob’s) life a little less stressful next year by sending your information on time, eh? “Sorry this is so late” and “I know this is late and understand if we can’t get in” were common E-mail or fax subject line. (We love y’all anyway!) Well, they got in because I was so late this year. A word to the wise: don’t try to assist in organising a major event the same season you are buying a house and moving. I owe ya one, Jim. Okay, probably two or three.

Thanks to the local and regional beer newspapers who are involved with special events at the festival (see below) and to the other publishers who provided free samples for your reading and enlightenment. Please support them with a subscription order so you can continue to be informed of all things malt and hops. Brewers can support these publications’ efforts on behalf of the craft beer industry by advertising as a way of keeping that news coming (not to mention making readers aware of your products and events). Educating customers and potential customers is good business for your brewery!

Thanks to the Bicycle Federation of Wisconsin and the Dane County Bicycle Transportation Alliance for providing attended bicycle valet parking. This service has been a huge and popular success and we’re glad to have them back as part of our event. So many people told us that they, too, would have bicycled here if they’d known the service was being offered. Well, it’s back and it’ll be back again next year, so plan ahead! Please let the volunteers go home on time and reclaim your bike as soon as possible, and definitely before 7pm.

Thanks to Bucky’s Rentals, suppliers of our tents and port-a-sans, for their great service and for donating the dunk tank and dressing area. Proceeds from the dunk tank fundraiser will go to Computers to Help People, Inc. and for the Power Flour project. Both are described later in the book.

Thanks to our two artists, Eric Leibbrandt and Patrick Hasburgh, who designed the festival logo (Eric) and our special edition “Saturday in the Park with Beer!” t-shirt (Patrick). Read more about them later in the book.

Thanks to the City of Madison (especially Elinor Riley) for the annual use of this beautiful park and making sure that all the necessary paperwork was done just right. Thanks also to the Madison Police officers for their services to the event . . . and to the well-behaved crowds every year that make their (and our) jobs that much easier.

Thanks to President Mark for his leadership and a cool head to keep the rest of us in check.

SPECIAL EVENTS AT THE BIG EVENT

Great Taste of 10,000 Lakes. The exhibiting brewpubs from Minnesota are here thanks to Great Lakes Brewing News’ sponsorship of the third annual “Great Taste of 10,000 Lakes” tasting competition. Great Lakes Brewing News is one of five major regional beer newspapers published by Craft Beer Guerilla Bill Metzger. In addition to feature articles on breweries, beer adventure, beer politics, and more, the paper offers comprehensive state-by-state (plus Ontario and Québec) coverage of craft breweries.

People who are familiar with the history of the Great Taste of the Midwest are aware that the festival is (with one exception long ago) explicitly NOT a competition and never will be. So why is a competition, even with outside sponsorship, taking place at this site? The answer is a very practical one. Minnesota law prohibits brewpubs from taking their beers off the premises except to participate in “tasting competitions.” A panel of expert judges evaluated the beers in a blind tasting and gave awards to the beers meeting the appropriate standards for the styles. The benefit for you is the chance to sample some of these beers today.

The competition allows Minnesota brewers to be here while complying with the laws of their home state. The long term solution, however, is to work to change antiquated anti-
consumer and anti-small brewer laws—-not just in Minnesota, but everywhere—-that make it difficult for small brewers to pursue their art and educate the public about the quality of their products. Ask your local brewers or state’s brewers’ guild for how you can join the fight for sane beer laws, and keep up with the news by supporting Great Lakes Brewing News and other publications that report on the industry. Visit Bill Metzger in the exhibit tent to learn more. (I understand he also has some really cool shirts available!)

The Cream City Carnival. “Whispering” Jeff Platt has been a vocal promoter of all things beer in Milwaukee. He publishes Cream City Suds, a compilation of news and “whisperings” about beer happenings in Milwaukee and beyond. He also hosts a weekly AM radio show. Be sure to visit the exhibits brought here by Platt and the Museum of Beer and Brewing project. Take a break from your tasting to visit the exhibit tent and learn more about an important part of Wisconsin’s cultural, agricultural, and economic heritage.

MADISON HOMEBREWERS & TASTERS GUILD TENT

The Madison Homebrewers and Tasters Guild tent is “festival headquarters” for many purposes. Brewers who need staff or volunteer assistance should visit the tent or speak with the staff members on duty (look for the special shirts and name badges). Festival patrons can purchase this year’s stylish commemorative T-shirt and other items, check the list of door prize winners, or get information on membership. If you need to summon aid in an emergency situation, contact one of the Madison police officers on duty or go to the tent to arrange for assistance.

DUNK TANK

“Dunk a Brewer” has been a popular feature of the festival since being added in 1997, and has been a way for MHTG to raise money for a local charitable cause. The first year we raised the money for the family of a nine-year-old girl who had an especially aggressive form of leukemia. In 1998 the Wheelchair Recycling Project received a lightly used electric chair and the funds to rebuild it. In 1999 we helped grant a very sick child’s special wish through our donation to Thursday’s Child. Last year and again this year, MHTG has designated Computers to Help People, Inc. (CHPI) as the recipient of the dunk tank proceeds, along with the Power Flour Action Network.

CHPI. CHPI is a small Madison-based nonprofit that has three functions. CHPI provides assistive technology assessments and consulting for people who are blind or have low vision, or who have dexterity impairments that prevent them from productively operating a standard computer mouse and/or keyboard. CHPI also provides a print-to-Braille service when copies of printed materials are required in Braille. Finally, CHPI recycles surplus donated computers through its Retro-Tech Program. Retro-Tech is the “St. Vincent’s” of used computers.

It is primarily because of Retro-Tech that CHPI is so pleased to have been selected to benefit from the Great Taste. The recycling is space and labor intensive and doesn’t generate revenue. Recycling saves usable legacy systems from the landfill stream while providing technology to individuals who otherwise could not afford it. The majority of recycled Retro-Tech systems are individually placed locally and configured for the next user by volunteers. But by partnering with groups and individuals with far flung activities, some Retro-Tech computers have also gone to economically depressed East Timor, Nigeria, Guatemala and the Pine Ridge Indian Reservation in South Dakota. For information about CHPI or to make a donation, please call Carl at 257-5917.

Power Flour. Most of you are aware of Briess Malting Company in tiny Chilton, Wisconsin, because their malted barley and other products are so widely used by craft brewers all over the country. Their support of small brewers has gone beyond merely that of a seller of high quality base malts and multi-hued specialty malts. Without Briess, many of the breweries and beers we enjoy today might not exist. So many of us affiliated in one way or another with the craft brewing industry were shocked and saddened by company president Roger Briess’ untimely death in April. What many of us did not previously know was Roger’s quiet but passionate dedication to fighting child hunger in the Third World.

Roger helped organise the Power Flour Action Network, a non-profit organization dedicated to improving the nutrition of infants in developing countries. PowerFlour is simply powdered malted barley, which is provided to mothers in Third World countries to help them successfully wean their infants from breast milk to solid foods. It works by using the enzymes in the malt to quickly predigest, liquify and sweeten the coarse, hard to digest starchy foods common in third world diets. It is during this weaning period that children often die of malnutrition. Just two pinches of PowerFlour added to eight ounces of porridge liquifies it so it can be fed by spoon or cup to a baby.

To date, PFAN has been actively involved in the distribution and evaluation of PowerFlour in more than a dozen developing countries throughout the world including Ghana, Haiti, Peru, Kenya and Ethiopia, to name a few. Because of generous contributions made to PFAN in memory of Roger Briess, the organization is now undertaking a 12-month-long research project in Panama and possibly a like study in Mexico, a project it has been wanting to do for some time but lacked funding for. The results of the research will be published and used to substantiate the organization’s fund raising efforts. Memorials made to the PFAN in memory of Roger Briess topped the $8,700 mark. PFAN is headquartered in Sheboygan, Wisconsin. For information contact Tom Hartzell, President, 1717 Pheasant Lane, Sheboygan, WI 53081, or check their website at www.powerflour.org

If you want to know more about how PFAN, and PowerFlour is saving lives, pick up a brochure at the Briess Malting table in the vendor tent near the main gate or buy a 
“bootstrap” for your tasting glass. Make a contribution if you wish at the Dunk Tank PowerFlour jar and help this great gift from Wisconsin’s malting industry save lives. It’s a Powerfully simple idea promoted by a kind man whom we all miss.

***

The Great Taste has long been a benefit event for Community Radio WORT/89.9FM, with a large portion of the proceeds from ticket sales donated to promote the same kind of diversity over the airwaves as we promote in the beer world. The dunk tank and “bootstrap” sales allow us to extend our charitable impulses to an additional (and “micro”-sized) nonprofit. But raising money at the festival is only part of our effort. We hope to give added exposure to these causes such that it raises community awareness of what these small organisations do. We hope you will support them not only by tossing a few balls to dunk a brewer or buying a bootstrap, but also by giving your own time and other resources to a deserving cause in your community that might go mostly ignored by the large institutional funders. Thank you for your support.

THE ARTISTS

MHTG began a partnership this year with the graphic arts program at Madison Area Technical College by opening the glass design selection process to students in one of the courses. We were overwhelmed by the number or designs and the quality of the effort; the program has some talented designers, who will be able to use their work as part of their portfolios for graduation and prospective employers. The designs by Eric Leibbrandt and Patrick Hasburgh were selected for the festival logo and our special edition “Saturday in the Park with Beer!” t-shirt.

Eric Leibbrandt didn’t start out in graphic arts. After earning a B.S. in biochemistry at University of Wisconsin-Madison, he decided he didn’t want to pursue a career in lab research or teaching and discovered a creative side he wanted to explore, through music, poetry, and eventually graphics. Eric enrolled in the commercial art program at MATC in Spring 1999. About the design competition, Eric said he looked at beer labels for ideas. “A couple of constructivist ones caught my eye and stuck as I was working on my design.” The glass design was the basis for other uses associated with the festival. Eric works as a lab assistant at the American Red Cross and is looking for fulltime print or web jobs, and any other opportunities to do some designing.

Patrick Hasburgh is a 23 year-old graduate of the MATC commercial art program from Blanchardville, Wisconsin, who enjoys skateboarding, fishing, and (of course) beer. He notes that he has always had a strong interest in art and “an even stronger interest in not starving,” which is what attracted him to graphic design. He attended University of Wisconsin - Stevens Point for a brief period, but transferred to MATC because they have one of the best graphic design programs in the state.

“Saturday in the Park with Beer!” is a parody of a Seurat painting. Patrick said that the park in the original painting reminded him of Olin-Turville. When viewing the impressionist painting, Patrick wondered, “think how much more fun those people could be having if they only had some beer.” That led to the parody. “To take such a bourgeois painting and throw some beer in there is hilarious to me. It will be fun to see how people respond to the shirt; I just want people to laugh.”

“I can't begin to describe how excited I am about attending my first ever beer festival. I really do love beer and will definitely brew my own someday.” Patrick is now working as a graphic designer for lifesketch.com and is also looking for freelance work.

SOME RULES

Serving size. The serving size for samples is two ounces and is as shown on the signs throughout the festival. Brewers are instructed not to provide full pours. Please do not ask them to fill your glass. With so many different choices and so little time (but still a long afternoon) you do not need more than a small taste of any particular beer. If you want a larger taste, make yourself a customer of that brewery after the festival.

Smoking. We understand that people differ greatly in their opinions about smoking. But this is a beer festival—not a tobacco festival. Yes, it is an outdoor event, but even baseball stadiums and other sports venues commonly prohibit smoking. It is simply not something you should expect to do within the boundaries of the festival, so please don’t. The following policy is designed to protect personal safety and comfort where nearly 6,000 people gather in a relatively small space (no one likes cigarette burns), and also accommodates those guests who wish to smoke. Fire safety regulations prohibit smoking in the tents; violators risk being ejected from the event on the spot. We accommodate those who want to smoke by providing hand-stamps for reentry at the main gate, and if you choose to smoke, be sure that you fully extinguish and dispose of your butt properly. Picking up hundreds of cigarette butts out of the grass is an unpleasant task for our cleanup volunteers; if you don’t believe it, stop by bright and early tomorrow morning to help out. Thanks for your cooperation!

Closing time. Closing time is 6pm. All brewers MUST stop serving at that time, because our licence for the event goes through 6pm. Do not endanger the future of the festival (and don’t invite a personal encounter with the police officers) by asking for “just one more” at 6pm. Please proceed to the exit promptly. (Do not go out over the fences.) The location for taxi and shuttle service, which we encourage you to use, is clearly marked.

ABOUT THIS PROGRAM
We hope that you will find this book useful today as you take your tasting tour of the Midwest's best breweries. Use the map of the festival grounds (available separately) to find the brewery booths, or let your sense of adventure take you where it may.

**New this year** in the program is the booth number for each brewery to make it easier for you to find particular breweries without having to refer to the map each time. Booths 1-38 are located in the tent that is to your right as you enter the main gate. Booths 39-68 are to your left relative to the main gate, and booths 69-102 are straight ahead. Booth 103 is a beer wagon and not under a tent.

Take the program home with you and save it as a beer reference and directory for your own travels and other adventures through the Midwest. When you visit a brewery or brewpub, tell 'em you saw them at the Great Taste!

The program incorporates details about breweries and their beers to the extent that the breweries provided that information. Incomplete or outdated program listings are a result of breweries not responding to our requests for program information. We thank the people at the breweries who took the time to provide festival-goers with complete information.

Although it's not always easy with so many breweries/beers and a limited number of pages, we tried where possible to provide at least some extra space on most pages for brief notes about the beers you sample. If you enjoy a particular beer, make a few notes for future reference to guide your purchases for home consumption and while enjoying a night out.

**FINAL WORDS**

We hope you enjoy your experience at North America's second longest-running craft beer festival. Plan now to join us at the 16th Annual Great Taste of the Midwest™ as always on the second Saturday in August, 10 August 2002. Tickets go on sale once again on May 1. For additional information about the festival, write to us at P.O. Box 1365, Madison, WI 53701 (enclose SASE). For now...

**WISCONSIN**

**ANGELIC BREWING COMPANY (19A)**  
322 West Johnson Street / 53703  
Brewmaster: Dean Coffey

Established 1995. Located only a half-block off State Street, Angelic serves award-winning ales (and an occasional lager) with heavenly sandwiches and entrees. Multiple World Beer Cup and Great American Beer Festival award winner. The beer has body and the food has soul!

**Bacchanal Blonde:** Our award winning golden ale is well balanced and very light, finishing with a hoppy snap. Its ultra-clean palate is reminiscent of a European Pilsner. (1996 GABF gold medal, Golden/Canadian Ale category)

**Sinner’s Stout:** This thick, creamy and full-bodied stout is made with seven different malts for a rich and complex flavor. Due to the sweet and fulfilling nature of this ale, it is undoubtedly sinful. (2000 World Beer Cup bronze medal, Oatmeal Stout category)

**Believer’s Bitter:** This beer drinker’s beer is extremely assertive, heavily hopped, full-bodied and “big,” which contrasts its delicate floral aroma. A couple of pints of this potent ale will definitely make you a true believer! (1998 World Beer Cup gold medal and 1999 GABF bronze medal, American Style Amber/Red Ale category)

**Trident Tripel:** Authentic Belgian trappist-style ale, dry and fruity, with an extremely high alcohol content. This ale is fermented at least three times what a normal ale would be, while using about “tripel” the ingredients. A few of these beers may actually give you Poseidon type qualities, so indulge. (2000 World Beer Cup bronze medal and 1999 GABF silver medal, Belgian-style tripel category)

**Paradise Lost Porter:** Medium bodied dark robust ale with unmistakable hop character.

**Heavenly Hefe-Weizen:** Unfiltered German-style wheat ale.

**Purgatory Pale Ale:** A moderately-hopped American pale ale for those who want something a bit less hoppy than Believer’S Bitter.

**APPLETON BREWING COMPANY (89C)**  
Appleton

Established 1989. The Jungers have owned and managed Adler Brau Pub and Restaurant/Appleton Brewing Co. for a total of 11 years, and in that time their reputation for good beer and good food has grown. The brewery has won multiple medals at the Great American Beer Festival and other competitions. We brew about 20 beers a year. Why so many? Because a brewer is like a chef and likes to make what you would enjoy. In addition to traditional beer styles, Appleton brews some out-of-the-ordinary beers, including Ginseng and Shiitake. Tours by appointment.
BELLOWS BREW CREW (93C)

BREWERY CREEK (95C)  
23 Commerce Street / 53565  
Beer Maker: Jeff Donaghue  
www.brewerycreek.com

Established 1998. Brewery Creek includes a 15-barrel brewery, a pub-restaurant and a luxury bed and breakfast inn. All three businesses are housed in a fully renovated three story 1854 limestone warehouse building in historic Mineral Point. We're a little brewery, with a little pub, in a little town, just a little West of Madison. But the beers tend to be big. If you like what you drink here at "the Taste" and you want more, you'll have to come to Mineral Point. Why not spend the night? Hope you have a cracking good time!

Double Brown Extra Stout Ebony Porter: Based on the "Original Porter" recipe from 1750 and weights in at around 20 P.
Special Olde Ale: A "Keeping Ale" with lots of malt and great age behind it. The gravity starts about the same.
Dunkle Dopple Weizenbock: Represents a rare breed of beer seldom found this side of the Atlantic, the "Dark Wheat Dopplebock." Just a wee bit heavier than the other two.

BREWMASTERS' PUB (9A)

The 6.7 barrel brewhouse produces unfiltered, naturally-carbonated beers. The beer lineup includes four regular beers and 2-4 specialty offerings. You never know what great beers they’re going to bring (or at least they don’t tell us)!

CAPITAL BREWERY COMPANY (38A)  
7734 Terrace Avenue / 53562-3163  
Brewmaster: Kirby Nelson  
capbrew@capital-brewery.com  
www.capital-brewery.com

Established 1986. Capital Brewery has been proudly producing German style lagers--the style of beers for which Wisconsin is famous--for 15 years. We currently produce 16 different beers, with sales efforts concentrated primarily in the Upper Midwest. The quality and diversity of our products have made us a well-respected brewery. We were recently named 7th best in the world, and the highest-rated American brewery in the 1998 BTI World Beer Championships. Visit our beer garden and hospitality areas!

Capital 1900: After researching brewing styles from the turn of the century, Capital created an outstanding mild American style lager. This American pilsener comes from an old Wisconsin recipe, circa 1900, and has a smoothness that the big beer companies will envy.

Oktoberfest: A classic traditional märzen with a gorgeous fiery amber color and rich, almost “toasted” flavor from the malt.

Autumnal Fire: A blazingly rich beer, a doppelbock with an Oktoberfest personality. Warm and intriguing, this is the perfect “brandy snifter” beer.

CENTRAL WATERS BREWING COMPANY (74C)  
701 Main Street / Post Office Box 123 / 54443  
Head Brewer: Paul Graham  
centralwaters@hotmail.com  
www.centralwaters.com

Established 1998. Central Waters Brewing Company, "the microbrew for the microfew," is a seven-barrel brewery in Central Wisconsin producing eight different ales, and root beer. Our first lager (Czech-style pils) is in the tanks and will be on the market soon. The beers are currently available in 22 ounce bottles and half-barrels, but look for six packs once we get our new bottling line rolling. Central Waters was a World Beer Cup 2000 winner for barleywine! In the Madison area, find our beers at Star Liquor, Riley’s Wines of the World, and Brennan’s.

Mudpuppy Porter: A surprisingly refreshing porter with a chocolatey nose and liberal hopping for the style.

Whitewater Weizen: German-style wheat beer brewed with refreshing spicy overtones.
Established 1987. Cherryland began operations as a brewpub in a turn of the century train station and has since evolved into a distributorship of its Golden Rail, Silver Rail, Cherry Rail, Rail Porter beers along with other micro and import beers. Distributed in Northeastern Wisconsin, Milwaukee, and Madison areas.

**City Lager:** Silver medal winner at the 2000 World Beer Cup, American Premium Lager
**City Festbier:** Traditional German-style Maerzen.

**CROSS PLAINS BREWERY INC. (22A)**
2109 Hickory Street / 53528
Brewmaster: John Zappa (Point)
www.essersbest.com

First established: 1863  Revived: 1995. George Esser arrived from Germany in 1852 with a taste for good German beer. He built a brewery in Cross Plains in 1863 and called his beer Esser's Best. Six generations of Essers have continued the tradition, keeping the company alive during Prohibition by distributing "near beer." In 1995, under the direction of Wayne and Larry Esser, Esser's Best is brewed in Stevens Point from the original recipe. Statewide distribution.

**Esser's Best:** Full-bodied old world German-style lager brewed with a variety of special caramel malts producing a deep amber color, with a full flavor and exceptional finish.
**CrossPlainsSpecial:** Refreshing, golden, medium-bodied pilsener with a pleasant malt flavor and lightly hopped for good balance.

Established 1999. Delafield Brewhaus offers award-winning beers, craft sodas, and culinary delights in a casual atmosphere with a view of scenic Lake Country, located approximately midway between Madison and Milwaukee at I-94 and WI-83. The brewhouse is the building’s main focus, centered between the restaurant and bar, with an open concept, typical of German style and heritage. The brewery has an in-house yeast propagation lab where 18 strains of yeast are stored and maintained. Using our lab, we have been able to produce 24 different beers in our first year. The restaurant features a Woodstone brick oven. We specialize in pizzas and our famous Asiago Artichoke/Cheese dip, as well as homemade soups, sandwiches, specialty salads, pasta, and a variety of chicken, pork, and beef entrees. Meeting and banquet facilities for 10-200. Beer to go is available in 1/4bbl, 1/2bbl, or growler. Tours are self-guided, explained and diagrammed in great detail on placemats.

**DENMARK BREWING LLC (8A)**
6000 Mariel Road / 54208
Brewmaster: Keith B. Gillaume
dmbrewing.bizland.com

First established: 1863  Revived: 1999. We are a small 6 barrel microbrewery.

**Valhalla Ale:** Our flagship beer is a flavourful ale with five different malted barleys, with organic two-row as the base malt. We use organic malt because of its naturally low protein content and compatibility with our yeast strain, which results in a shorter fermentation time and an uncommon clarity in unfiltered beer. Nugget and Cascade hops give this malty beer a crisp balance.

**Denmark Red Ale:** Popular ale with three malts and three hop varieties. Smooth finish.

**Continental Pilsener:** Golden in color with good head retention. The rich flavor is not overpowered by hops or exotic specialty grains.

EGAN BREWING COMPANY (44B)

Established 1996. De Pere's oldest and largest operating brewery was originally a standalone microbrewery established to brew and bottle beer for Hansen's Dairy Stores. We added a bar and a restaurant in 1997, and spun them off in 1999, so we're back to being a standalone microbrewery, draught only. The restaurant, now known as Gallagher's of De Pere, still carries up to fourteen of our beers on tap at all times. Available on tap in the Green Bay area at Gallagher's of De Pere, Gallagher's Off Broadway, Gallagher's West Mason, Keith's Bar (Bellevue), and Stadium View. If we're not on tap at your favorite tavern, tell the owner to give me a call. Tours are available any time the brewer's around, or by appointment. Have fun.

Abbot Pennings Grand Cru: If you like our Tripel, then this is the beer for you. Bigger, stronger, and much more complex than the Tripel, this beer will treat you to an explosion of flavor in every sip. 10.0% abv.

Wilsteraner Altbier: A fond reminder of the days before beer was yellow, this brown beer is the famous specialty of the brewers of the city of Düsseldorf, brewed in the German Alt ("old") style. It's medium in body and well-hopped with imported German Spalter hops. 5.9% abv.

Princess of Darkness Porter: Our own Princess Paris brews a devilishly fine Porter that's very black and roasty, with lots of black malt flavor and a bitter-sweet finish. Do not fear the darkness! 5.6% abv.

ENDHOUSE BREWERY & RESTAURANT (87C) REEDSBURG

Downtown Brown Ale, Pale Ale, and Kölsch

Established 1997. In 1856 Ulrich Oderbolz pioneered Western Wisconsin's brewing industry in Black River Falls. More than 140 years later, David and Jim Hellman re-established that tradition by opening the Pioneer Brewing Company in the historic Oderbolz Brewery building. The first kegs of Pioneer Lager and Pale Ale were rolled out in June 1997, with Black River Red introduced in early 1998. Later that year, Pioneer expanded its operations even further when it acquired brands from the Wisconsin Brewing Company, when that brewery closed. Pioneer currently produces five beers under the Pioneer label and six beers under the Wisconsin label. Pioneer has quickly gained a reputation for producing world-class beers as evidenced by its two gold medals in the World Beer Cup 2000. All beers are available in kegs and six-pack bottles. Current distribution covers the state of Wisconsin and much of Minnesota. Tours are available during regular business hours or by appointment. Call ahead.

Downing is a rural community about 20 miles northwest of Menomonie and 45 miles east of Saint Paul. WISCONSIN
Established 1995. Slab City Brewing is a 200 bbl per year microbrewery located on a turn-of-the-century dairy farm 30 miles northwest of Green Bay. The milk house was converted to hold a custom-designed 4 BBL brewing system, with plans for a separate 9 BBL system in the near future. Slab City brews seven styles of ales, all using open fermentation. The high mineral content of the region's water adds to the uniqueness of all Slab City beers. The beers are available on draught in selected taverns in Northern Wisconsin. Growlers are available; ask your local beer store. Growlers rest comfortably in your refrigerator next to that other Wisconsin beverage that used to be produced on the site of the brewery. Tours: by request (call first).

**Esken Alt:** Full-bodied, unfiltered, unpasteurized, German style ale with a rich copper color, semi-sweet malty flavor balanced with a generous portion of fresh hops. A German altbier yeast also makes a distinct flavor contribution. The malty finish to this full-bodied ale is accented by a hoppy note that satisfies a discerning tongue.

**Old 47 Pale Ale:** A local favorite with a distinctive hoppy nose from a generous portion of Chinook hops. Harrington, Munich and Vienna malts give this beer a refreshing, full clean taste. Enjoy with a fine cigar on a summer night in the backyard that is your kingdom.

**Milkhouse Stout:** Don’t be fooled by this name! Milkhouse Stout is not a sweet stout, as its name might imply. This is a dry stout with a rich roasted flavor and an ample dose of hops. A blend of five different barleys gives this a robust taste that will tantalize your taste buds. Best served at about 45F in a room temperature pint glass.

**W.C. Bitter:** Clean taste with a dry finish. Hallertau and Chinook hops blended with Harrington and Victory malts make this a very enjoyable beer.

**High Noon Weiss:** Hints of banana and clove, lightly hopped with Hallertau, this light summer beer is a great crowd pleaser for the less seasoned beer drinker. Goes great after a hard day’s work in the hot summer sun! A slice of fresh lemon is a flavor enhancer, but not a requirement because this beer stands quite well on its own!

**SOUTH SHORE BREWERY (50B) ASHLAND**
808 West Main Street / 54806
Head Beer Guy:: Eugene “Bo” Bélanger www.southshorebrewery.com

Established 1995. The South Shore Brewery was established in May 1995 and become the state’s seventh microbrewery and first in Northern Wisconsin. Many changes have occurred since its inception. Originally located in the historic Soo Line Depot building in downtown Ashland, it existed with the Railyard Pub. A few additions to the brewery allowed for increased capacity and distribution. A catastrophic fire ravaged the Depot building April 1, 2000 and left the brewery temporarily homeless. A new site was secured in July, 2000 and the ensuing construction lasted until late March, 2001. The new brewhouse and production line was formally commissioned March 29th. The brewery is dedicated to producing flavorful innovative products that uses the best of traditional techniques and taps the resources of originality from its professional staff. Currently, the brewery distributes its ever increasing line of products to folks in the northern third of the state and Western Upper Peninsula of Michigan.

**Nut Brown Ale:** (3.8-4.2 % by wt) Don’t be intimidated by the rich walnut color. This beer is really not heavy at all. It is very smooth with no bitterness, and has a real warming, nut-like flavor and aroma. Brewed to match a traditional English mild, it has carbonation levels that are more American.

**Honey Beer:** (4.0-4.5% by wt.) This golden beer is refreshing, crisp yet not overwhelmingly bitter. Locally harvested honey adds that delicate touch of sweetness that balances very nicely with newly developed aroma hops.

**Pale Ale:** (3.8-4.4% by wt.) Our Pale is an Americanized version of a worldwide favorite. A light amber to copper colored beer, the Vienna malt used in our recipe balances quite nicely with the higher hopping levels. Using two American developed hops, Galena and Cascade, this beer is very distinctive in both flavor and aroma. Described as pleasant, floral, and somewhat spicy with a definite citrus note, it’s one of our brewers favorites. Goes great with more aggressive foods.

**Rhoades’ Scholar Stout:** (4.7-5.4% by wt.) Our only named beer to date. Its honorary status is in tribute to its’ designer, Allen Rhoades, a fellow brewer who captured a blue ribbon at the Western Washington State Fair when it was entered as a homebrew. It’s everything a stout should be. Rich and hearty, not thick and overpowering, comes complete with a creamy head. Chocolate and crystal malts along with roasted barely combine to create the wonderful flavor. Compliments deserts well and try one in place of a cup of coffee.

**South Shore Bavarian Wheat/Weizen:** (4.4 % by wt.) We use 60% wheat malt. The yeast imparts very unique flavors and aromas. The flavors have been described as fruity, clove and nutmeg-like and the aromas are somewhat banana or bubble-gum.

**Iron Ore Red Lager:** (3.7% by wt.) The beautiful color and depth of flavors is achieved by a dominance of Vienna malt with complimentary additions of rye and a couple caramel malts. The crispness and drinkability come from lagering and the flavor balance created by Cascade and Liberty hops. We think you’ll enjoy the difference this beer has in comparison to others of the same style. Brewed specifically for Barker’s Island, Superior, WI.

**Oatmeal Cream Ale:** (3.5% by wt.) This is aimed at our lite beer drinkers. As a cream ale it combines the features of a lager (crisp and smooth) with the best of an ale (fruity and complex) into one beer. We’ve also added 5% oatmeal and 16% white wheat for a round, smooth flavor and mouthfeel. The innovative feature of this beer is that we brewed one batch as an ale the other as a lager. After primary fermentation they were combined in condition tanks and allowed to maturate. Moderate hop bitterness.

Our mead is made from local fruits and honey whenever possible. Indeed, “honeymoon” refers to the tradition of giving the newly-wedded couple a “moon’s” supply of mead to ensure a fruitful union. We make 14 different styles of mead ranging from dry to sweet in traditional, melomel, cyser, black and brackett. We have both wine and beer styles. Our products are bottled in 375ml splits, 750ml wine bottles, or 22 oz beer bottles. Distribution: retail outlets in Madison, Milwaukee, Chicago, and surrounding areas. Check out our web site for a complete listing of retail outlets, or stop by for a tour and tasting at our wine cellar and gift shop in Iron River, Wisconsin.

**Sweet Mead:** Refreshingly sweet honey wine. A “honeymoon” tradition to enjoy with a loved one. Refreshing over ice for summer or warmed and spiced for cold winter nights.

**Brackett:** Mead made from malted baley and honey to represent the ancient link between mead and ale. Early explorers to Scandinavia were the first to discover it.

ILLINOIS
Dark Star Imperial Stout: A robust American style stout, aged 2 years in whiskey barrels. Taste it and see why. 2 years old.

Bourbon Barrel Brown: Pullman Brown Ale aged in Jack Daniel's Barrel. Another barrel aging project that worked out well. Dark beers always seem to do well in whiskey barrels. Taste it and see why. 2 years old.

Panama Red Ale: A beer brewed with a principle focus on Panama. Panama's 6th appearance at the GTM. Brewed with Pale Ale malt and Belgian caramel malts. Hopped with Centennial and Willamette. Dry hopped with a very generous dose of Centennial right in the keg!

Pullman Brown Ale: Our attempt to recreate a Brown Ale from Colonial-era America. Using Molasses and hand toasted oat flakes as adjuncts this beer has an incredible aroma and a very nice texture. Our customers find that this brew is very quaffable. This beer has won honors at 3 of the last 4 Great American Beer Festivals.

Great Taste of the Midwest Exclusive First Releases & Special Beers: As has become tradition we have several beers that we age for many long months and years knowing that we will bring to Madison to share with you today. Old Conundrum Barley Wine: Yes, we did save a little for one more appearance. Nice chewy barley Wine aged 14 months in a Jack Daniel's barrel. 3 years old.

Kilt Kicker Wee Heavy: Our Scottish スコットルス ale aged in a Jack Daniel's Barrel. This is an experiment for us and this is its public debut. 11 months old. Should display a hint of peat smoke but may be subdued by whiskey character.

Bourbon Barrel Brown: Pullman Brown Ale aged in Jack Daniel's Barrel. Another barrel aging project that worked out well. Dark beers always seem to do well in whiskey barrels. Taste it and see why. 2 years old.

Dark Star Imperial Stout: The beer that started it all back in 1998. There is a magic that gets created when you put a big thick strong beer into a whiskey barrel and age it for 6-7 months. A myriad of flavors with depth and complexity. When tasting you'll notice dark chocolate, espresso, dark fruits as well as oak and vanilla notes.

and full bodied beer characterized by hints of chocolate, coffee, caramel and beechwood smoke. The big malty finish to this beer is balanced by a solid hop bitterness and the refined English aroma and flavor of premium Goldings finishing hops.

Arcadia Strong Scotch Ale--Cask--: A lovely and deep garnet color is joined by the aroma of plums and toffee in this unique and special ale. Brewed with Marris Otter malted barley from Crisp Maltings, Ltd. in England, the rich and full-bodied feel of this beer brings out flavors of caramel and roasted chestnuts, which is balanced with a clean and crisp alcohol finish, and just the right amount of lingering hop bitterness. A real treat!

Chief Brewer: Stephen Hale  
www.schlafly.com

Established 1991. Missouri's first brewpub, The Saint Louis Brewery and Tap Room offers great food and fresh beer in a comfortable, relaxed atmosphere. Within the next year, we will have a second brewery in place and will produce both bottles and draft in St. Louis (current bottle production takes place at August Schell in New Ulm, MN). We believe great beer should be consumed as fresh and close to home as possible, therefore Schlafly Beer has limited distribution in central and southern Missouri and Illinois. We produce six year-around draught beers (with Pilsener, Hefeweizen, Pale Ale, and Oatmeal Stout also in bottles) and 27 seasonals (Summer Kölsch, Oktoberfest, Winter ESB, and Scotch Ale in bottles). Try ALL of the beers we brew at The Saint Louis Brewery Beer Festival on September 15!

Oktoberfest: Pre-season special! Rich, red-amber lager with the delicious flavor of Munich malt.

Helles: A delightful, well-balanced lager, golden in color and medium bodied

Hefeweizen: An American style unfiltered wheat ale; light in body and color with a delicious finish of wheat malt.

Now go have a beer, eh?
DON’T BE A LOSER!
(YES, THERE ARE ALWAYS SOME RULES TO FOLLOW.)

DON’T BE A LOSER! If you break your festival glass you can get a plastic cup and stamp for sampling the rest of the day. People will point at you, laugh at you, and call you “Loser!” Don’t let this happen to you! Be careful about where you put your glass when you go to return a beer rental. Consider the minimal friction between a smooth glass bottom and a smooth inclined plastic surface inside a port-a-san; it’s not a good combination. (You don’t want to think about the things the toilet rental company has found when pumping them out.) Don’t lose it, either. The vast majority of the people are the festival are honest, but there are always a few sleazy folks who have stolen peoples’ glasses or items from exhibiting breweries. Don’t give someone the excuse that s/he “accidentally” picked up yours. We have masking tape and markers available around the festival grounds if you wish to label your glass. We are also making available for sale a stylish leather strap for carrying your glass, with profits donated to charity. Visit the club tent or the dunk tank to purchase your very own bootstrap. If all those precautions fail, stop by and see us after 5pm and we’ll sell you a replacement glass if we have any left. Speaking of the glass, don’t ask for a full one. The serving size is two ounces. Save your daily “alcohol budget” to be able to try other beers. Drink plenty of water to stay hydrated.

DON’T BE A BUTTHEAD! Fire safety regulations prohibit smoking in the tents. Violators risk being “booted” from the festival. Handstamps are available for reentry if you wish to smoke outside the gate. And remember that the world is not your ashtray (nor are we providing any for something we want to discourage inside the festival). Someone has to clean up this park tomorrow morning. Extinguish and dispose of your butts properly; either carry your own container or don’t light up.

DON’T BE AN @$%* #$ LOSER! The festival ends at 6pm. Brewers must stop serving and guests must be on their way out the gate. Don’t endanger the future of the festival by asking for “just one more.”

DON’T BE A DRUNKEN LOSER! We hope you didn’t drive here anyway; you definitely shouldn’t be driving immediately after the festival. Free shuttles to Angelic, Great Dane, J.T.Whitney’s, Capital Brewery, and Wonder’s Pub are available. Follow the signs. Cabs to your home or hotel are also available both from the park and from the pubs. Madison Metro bus service is available from the Expo Centre across the street and from all three brewpubs (from downtown and from the West Transfer Point next to J.T.Whitney’s.

Support your local brewers! Drink craft beer, not crap beer! Friends don’t let friends drink swill! Now go have a beer! Enjoy the festival and join us again next year!
